

Dawn Snyder

Dawn Snyder has 25+ years of operational experience at Boehringer Ingelheim (BI) across Human Pharma, Animal Health, Consumer Health, and Generics within Customer Support, Trade Sales & Operations, Clinical Development & Medical Affairs, and Compliance functions. In her role as Manager of Compliance Monitoring, she is responsible for the development and management of the risk-based US Compliance monitoring program for all US BI entities. In addition, she oversees third party monitoring vendors, implements monitoring systems/analytics, and trains employees and monitors on relevant products and policies/procedures. Dawn is also trained in six sigma Green Belt.
